

Sumit Tiwari

B.E. (Electronics and Computer Science)

+918898452373 | tiwarisumit1757@gmail.com | Mumbai | github.com/Sumitevolv

PERSONAL SUMMARY

Electronics and Computer Science undergraduate with hands-on experience in Embedded Systems, IoT, PCB Design, AI-based monitoring systems, and Full-Stack Web Development. Skilled in ESP32, STM32, Arduino, React.js, Python, SQL, and hardware prototyping. Proficient in designing and developing IoT solutions, integrating sensors, and building real-time monitoring applications. Experienced through internships and technical projects in PCB design, circuit simulation, and product development. Passionate about leveraging software and embedded technologies to develop innovative and scalable engineering solutions.

Qualification	Institute	Board/University	Year	Score
Bachelor of Engineering (B.E.) in Electronics and Computer Science	Thakur College of Engineering and Technology, Mumbai	University of Mumbai	2022 – 2026	CGPA: 8.3/10
Higher Secondary Certificate (HSC)	Thakur College of Science and Commerce, Mumbai	Maharashtra State Board of Secondary and Higher Secondary Education	2020 – 2022	60.33%
Secondary School Certificate (SSC)	R.C. Patel High School	Maharashtra State Board of Secondary and Higher Secondary Education	2019 – 2020	73.63%

Category	Skills
Programming & Databases	C, HTML, CSS, React.js, Python, JavaScript, SQL, MySQL, MongoDB
Embedded Systems & IoT	Arduino UNO, ESP32, STM32, Embedded C, IoT Prototyping, Sensor Integration, NanoEdge AI
PCB Design & Engineering Tools	EasyEDA, KiCad, LTspice, MATLAB, Arduino IDE
Tools & Platforms	GitHub, MATLAB, Arduino IDE, Power BI, Figma, Canva
Technical & Professional Skills	Data Structures & Algorithms, Circuit Design, Hardware Testing, Project Management, Problem Solving, Technical Documentation, Team Leadership, Embedded Systems , Web development , Software Testing

INTERNSHIP

RAJAT ENTERPRISE | Automation Engineer Intern

6th Jan 2026 to 6th Mar 2026

- Embedded Systems & IoT Development: Experienced in programming microcontrollers like Arduino Uno and ESP modules to build IoT prototypes, integrating sensors and wireless communication protocols.

MV SOLUTIONS | Research & Development Associate

22nd Oct 2025 to 22nd Nov 2025

- Worked on research and analyzing the real time data after development of product. Testing and product development also worked with python and Web Development

CHANDRAHASA MUNITIONS | Intern Electronics Engineer

14th Oct 2024 to 14th Feb 2025

- Designed PCB and Circuit of Ammunitions Using Easy EDA , LT Spice And KiCad

PROJECTS

STUDENT STUDY AND ANALYSIS PORTAL

Build Webpage using HTML, CSS and JavaScript where it has Study videos , as per marks student analysis and many other things also it has attendance marker as well

FIRE ALARM

Arduino, BC547, LDR Sensor. Developed an automated fire detection prototype capable of triggering alerts under hazardous conditions.

DEPLOYMENT OF AI-BASED AIR AND WATER POLLUTION MONITORING AND CONTROL SYSTEM

An AI-based pollution monitoring and control system leveraging machine learning and deep learning models to detect, analyze, and reduce environmental pollutants in real time. **Selected in Avishkar 2026 Zonal Level Presentation & Won 2nd prize in MindsEye 2026.**

YO VOICE AI PERSONAL ASSISTANT

Using Python I build an voice assistant like Siri and Google Assistant where it simulates different task with voice command it is also working in system Background too

ACHIEVEMENTS AND LEADERSHIP ACTIVITIES

Head of Marketing – Student Council (TSDW), TCET

2025–2026

Core Committee Member (Sponsorship Head) – IETE TCET

2023–2025

MR & PR Working Committee Member – TSDW, TCET

2023–2025

Sub-Core (Partner Lead) – TEDxTCET

2024–2025

Volunteer & Technical Team Member – TCET NSS Unit(B-4)

2023–2025

Working Committee Member – IETE TCET

2023–2024

Selected for Zonal Level Presentation at Avishkar 2026 for the AI-Based Air and Water Pollution Monitoring System.

2026

Secured 2nd Prize in MindsEye 2026 Project Presentation Competition.

2026

Certification	Issuing Organization	Year	Description
Scientific Computing with Python (300 Hours)	freeCodeCamp	2024	Python programming and problem-solving.
SQL Analytics and BI	Simplilearn	2025	SQL and data analytics.
Power BI for Beginners	Simplilearn	2025	Data visualization and dashboards.
Embedded AI using NanoEdge AI Studio	Professional Training Program	2025	Embedded AI and TinyML basics.
